SKILLS

React.js | HTML5 | CSS3 | JavaScript | Node.js | Express.js | MongoDB | Git | VS Code | Postman | REST APIs | DSA Basics | Responsive Design | Java | Python

EDUCATION

Master of Science (CS)[MSc] — Aug 2024 - Present
DS Kadam Science College, Gadhinlaj
Score: 7.35 CGPA

Bachelor of Science [BSc] — Aug 2021 - Mar 2024
DS Kadam Science College, Gadhinlaj
Score: 7.94 CGPA

12th PUC — Jun 2019 - Jun 2021
RK Junior College, Gadhinlaj
Score: 83.50%

10th - SSLC — Jun 2018 - Mar 2019
VD Shinde Highschool, Gadhinlag
Score: 72%

LANGUAGES

English, Hindi, Marathi

EXPERIENCE

Full Stack Developer Intern — Oct 2024 - Apr 2025
orelse.ai — Remote

- Designed and developed a Carbon Emission Tracking Application using the **MERN stack (MongoDB, Express.js, React.js, Node.js)**
- Implemented secure REST **APIs** for managing user data and emission records
- Structured **MongoDB** collections with optimized schema design for efficient data retrieval
- Integrated data **visualization charts** for emission analytics using frontend libraries
- Built a fully responsive NGO website with optimized performance across desktop and mobile devices
- Reduced page load time by optimizing component **rendering and minimizing unnecessary API calls**

Web Developer Intern — Jun 2024 - Dec 2024
SparkLab IT Solutions — Gadhinlaj, Maharastra

- Developed responsive web interfaces using **React.js, HTML5, CSS3, and JavaScript**, ensuring cross-browser compatibility
- Built reusable React components to improve code maintainability and scalability
- Integrated **frontend UI with backend APIs using REST architecture**
- Assisted in designing **MongoDB schemas** and performing **CRUD operations**
- **Debugged UI and backend issues** using browser developer tools and Postman
- Collaborated with senior developers to implement feature enhancements and resolve production bugs
- Performed manual testing to identify functional and UI defects before deployment

ACHIEVEMENTS

- Secured **3rd position among 250+ participants** in a technical coding challenge.
- Ranked 7th out of 8,790 participants in a competitive coding event, demonstrating strong problem-solving and algorithmic skills under time constraints.
- Recognised for outstanding performance in a coding-based technical event.
- Awarded Student of the Year (2019) among 190 students for academic excellence and overall performance.
- Produced and directed an award-winning short film, showcasing leadership, creativity, and execution skills.

INTERESTS

- Interested in tech innovations and web development
- Fitness and football
